

Lab Notebook Entry 2

Date Performed

1-May

Procedure

Move plate of pTlpA36-wasabi to the incubator overnight

Details

Purpose: Get the cells growing again after being stored in the fridge over the weekend

Protocol

Move the plate into the incubator. Keep the plate upside down so the writing is facing up. Make sure the incubator is on. If it isn't, turn it on and make sure it is set to 37C.
